**TELEPHONE
 DIRECTORY**

IF YOUR TELEPHONE IS OUT OF ORDER
 NOTIFY "COMPLAINT DEPARTMENT" AT ONCE.

FOR ORDERS FOR TELEPHONE SERVICE, ETC.,
 CALL "SALES DEPARTMENT."

MOVES. Subscribers are requested to notify the
 Company at least seven days in advance when the
 location of a telephone is to be changed.

We advise the use of the expression, "Telephone
 Connection," rather than the telephone number on
 stationery, wagons and in advertising, as we may
 be obliged to change your number to meet service
 requirements.

THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY

C. H. MOORE . . . District Commercial Superintendent
 Oakland, Cal.

J. W. GILKYSO . . . Division Commercial Superintendent
 San Francisco, Cal.

TELEPHONE INFORMATION

HOW TO USE THE TELEPHONE

Speak directly into the mouthpiece of your telephone with your lips close to it.

Speak slowly and distinctly.

Obtain telephone numbers from the latest Telephone Directory. Calling numbers from memory, or taking them from cards, letterheads, etc., may result in delays or wrong number connections.

If the number is not found in the Directory, call "Information" and when the number is obtained make a memorandum of it for future reference.

When giving a number to the operator, state—(1) the name of the central office wanted, (2) each figure of the telephone number desired and (3) the party line letter, if there is one. Numbers which are even hundreds or even thousands should be given as such, instead of each figure separately.

Examples for giving orders:

San Jose 1273—"San Jose, One Two—Seven Three."

San Jose 4418-J—"San Jose, Four Four—One Eight J."

San Jose 2100—"San Jose, Two One—Hundred."

San Jose 3000—"San Jose, Three Thousand."

After giving the number listen to the operator as she repeats it. If she repeats it correctly, say, "Yes" or "Right." If she does not repeat it correctly, say, "No" and give the number again, more clearly if possible.

After calling a number, remain with the receiver at your ear until the called number answers or until a definite report is received from the operator. If the called line is found in use, the operator will report "The line is busy." (On calls to party lines, the busy report does not necessarily mean that the particular telephone called is busy, but that some telephone on the line is in use.) If the number called fails to answer within a reasonable time the operator will report "(called number) does not answer."

Answer calls promptly in order to avoid a report of "does not answer" being given to the party calling.

Do not remove the receiver from the hook until the bell has stopped ringing.

When answering a call instead of saying "Hello," give your telephone number or name as "This is San Jose 9860," or "This is Brown & Company," or "This is Smith & Company, Mr. Jones speaking," etc.

To recall the operator during a connection move the receiver hook slowly up and down five or six times or until the operator answers. Do not move the hook rapidly as this may prevent the operator from receiving the desired signal.

Do not hang up the receiver until you are ready for the operator to take down the connection.

When you are not using the telephone see that the receiver is on the hook, large end down.

TWO-NUMBER TOLL CALLS

Two-Number Toll Calls must be made by number in the same manner as local calls. If the telephone number is not in this directory it may be obtained from the Information Operator. Charge is made if connection is completed with the number called, the time for which the charge is made beginning when the number called first answers.

When a two-number toll connection is desired, give the number (preceded by the name of the exchange) to the first operator who answers and remain with the receiver at the ear until the called number answers or until the operator reports.

▼

Collect Calls—The charges on two-number toll calls may be made against the telephone called, provided that the charges are accepted at that telephone. Requests to have the charges collected at the called telephone should be made when the call is given to the operator.

LONG-DISTANCE CALLS

To make a long-distance (particular-person) toll call signal the local operator in the regular way and ask for "Long-Distance." When the long-distance operator answers, give her your call, furnishing the necessary details in the following order:

1. The telephone number from which the call is made and your name.
2. The number of the telephone desired, if known.
3. The firm name or the name and initials of the person under whose name the telephone is listed and the street address, if the telephone number is not known.
4. The name of the person with whom you wish to speak.
5. The name of the alternate person, if you are willing to talk with anyone else in case the person desired cannot be reached.
6. The name of the city or town and state in which the desired person is located.

Listen for the operator to repeat the details of your call and remain at the telephone until she indicates that you may hang up the receiver.

Messenger Calls—When necessary a messenger will be sent to the address of the person desired requesting him to come to a telephone, provided the calling party guarantees payment for the messenger service. The exact amount disbursed for messenger service will be charged in addition to the Company's charge for the telephone connection.

Collect Calls—Upon request of the calling party, the charges on a particular-person toll call, including messenger charges, if any, will be collected from the called telephone, if such charges are accepted by the party called. Messenger charges must be guaranteed by the calling party in case the called party cannot be located or refuses to accept the charges. Requests to have the charges collected in this way should be made when the call is given to the long-distance operator.

Appointment Calls—An appointment to talk at a specified time may be made by notifying the long-distance operator of the time at which the connection is desired. No extra charge will be made for appointment calls (except for messenger service when such service is involved), but the Company cannot guarantee the completion of the call at the exact time specified.

Leave Word Calls—If the person desired is not immediately reached at the telephone called, the operator will, at the request of the calling party, leave word (without charge) to have him call when ready to talk. On "leave word" calls a message will be left at the called telephone for the person desired to call a particular long-distance operator. When the person receiving such a message is ready to talk, he should ask the first operator who answers to connect him with "Long-Distance." When the long-distance operator answers he should give her the name of the city or town calling him, saying, "(point calling) is calling me," and then upon request of the operator give his own name and telephone number.

Reports—In case there is delay in completing a call the long-distance operator will advise the person calling, at suitable intervals, regarding the cause of the delay. If an additional report is desired call "Long-Distance" and ask for the information desired by first saying, "Will you please give me a report on my call to (point called)," and then upon request of the operator give your own name and telephone number.

Requests for Charges—If a patron wishes to be notified of the amount of the charges on his call he will save time by so advising the long-distance operator at the time of giving the call. If the request for such information is not made until the completion of conversation, unavoidable delay may result while the operator obtains the rate and computes the charges.

LONG-DISTANCE CALLS—Continued

Rates and Charges—Rates for long-distance service are based in general upon an initial period of two (2) minutes, although in some cases a one (1) or three (3) minute initial period is used. The full rate for the initial period will be charged for all connections not exceeding the initial period. For overtime beyond the initial period, charge will be made by the minute for each additional minute or fractional part thereof. The long-distance operator will not interrupt conversation to notify subscribers of the expiration of the initial period.

When a particular person is asked for, every reasonable effort will be made to establish the connection with the person desired. If the person desired is not reached, no charge will be made for the service rendered, except for messenger service, should such service be involved.

When no particular person is asked for at the time the call is given to the long-distance operator, charge will be made if connection with the proper telephone is established.

SUPERVISION BY PRIVATE BRANCH EXCHANGE OPERATORS

The long-distance operator is held responsible for the supervision and timing of all messages and for the character of the service furnished.

Supervision of long-distance connections by private branch exchange operators interferes with transmission and therefore attendants should not listen on the line after the connection has been established.

COMPLAINTS

The Company appreciates prompt reports of specific instances of unsatisfactory service. Such criticisms should always be made by telephone, as soon after the trouble is experienced as possible, so that they may receive prompt attention. Ask for "Complaint Department" when it is necessary to report telephone out-of-order or other unsatisfactory service. Operators are required to be courteous in their dealings with subscribers, but are not permitted to engage in conversation beyond that necessary to complete connections.

COINS REFUNDED FROM PREPAYMENT COIN BOX STATIONS

At Prepayment Coin Box Stations coins will be refunded by the operator on local calls to "Long-Distance," to any department of the Telephone Company, and on all calls where the called line is busy, the party does not answer or the call is not completed for some other reason. Failure to refund should be reported to the operator in order that proper allowance may be made in the form of a free connection or an adjustment by the collector.

TELEGRAMS BY TELEPHONE

To facilitate sending telegrams and cablegrams patrons should call by name for The Pacific Telephone and Telegraph Company, Postal Telegraph Cable Company or Western Union Telegraph Company.
For The Pacific Telephone & Telegraph Company call "Pacific Telegraph."
For Postal Telegraph Cable Co.....call "Postal."
For Western Union Telegraph Co.....call "Western Union."

The charges for telegraph messages of The Pacific Telephone and Telegraph Company and the Western Union Telegraph Company filed by telephone, will be billed by the Telephone Company on its bill for telephone service.

Patrons calling telegraph companies for any other purpose than to send a telegram or cablegram should call by number in the usual manner.

ORDERS FOR TELEPHONE SERVICE

For orders for new service, changes in existing service, changes in directory listings, etc., call for "Sales Department."

NOTICE TO MOVE A TELEPHONE

Subscribers are requested to notify the Company at least seven days in advance when the location of a telephone is to be changed.

When vacating premises be sure to advise the Company in order that your account may be closed promptly.

In notifying please call "Sales Department."

INFORMATION REGARDING ACCOUNTS

For information relative to Bills Rendered call "Collection Department."

PUBLISHING OF TELEPHONE NUMBERS

We advise the use of the expression "Telephone Connection" rather than the telephone number, on stationery, wagons, and in advertising, as we may be obliged to change your number to meet service requirements.

ATTACHMENTS TO TELEPHONES

No instruments or appliances not authorized by this Company shall be attached to or used in connection with its instruments or lines. Various unauthorized devices, claimed by their agents to eliminate noise, to destroy germs, supplant the telephone directory, etc., are entirely unnecessary and interfere with the service. Subscribers are requested not to permit the use of such devices in connection with their telephones.

IDENTIFICATION OF EMPLOYEES

All employees of the Company whose duties require them to enter the premises of its subscribers, for any purpose whatever, are supplied with badges. Any subscriber having the slightest doubt as to the identity or the right of the person to represent himself as an employee of the Company should request such person to show his badge.

Information relative to suspicious characters requesting access to, or tampering with telephones having coin box attachments, should be telephoned immediately to "Collection Department."

Subscribers having Coin Boxes connected with their telephones are requested to be present at the time the box is emptied and to verify the contents before signing the certificate.

DIRECTORY ADVERTISING

For information regarding space in this Directory, call "Advertising Department."

TELEPHONE DIRECTORIES

This Directory is the property of The Pacific Telephone and Telegraph Company and is provided for the sole and exclusive use of its patrons, who are requested to maintain it in its original condition, usual wear and tear excepted. The Company assumes no liability because of errors or omissions.

Other directories issued by this Company and directories issued by other Bell Telephone Companies may be obtained upon application at nominal cost.

SURRENDER OF OLD DIRECTORIES

Many telephone numbers are changed and new numbers listed in every issue of the directory. It is for subscribers' own interest as well as that of the Telephone Company that all old directories be collected, as the use of obsolete telephone books results in wrong number calls which are an annoyance to both subscribers and the Company.

WRIGHT'S STATION

P. P. Webb, Agent

(System operated by the Santa Cruz Mountains Private Telephone Lines, connecting with The Pacific Telephone And Telegraph Company's long distance lines. When placing call please give operator the name of the party wanted.)

WHEN AWAY FROM HOME

You can keep in touch with your family by Long Distance Telephone.

A personal talk will assure you that everything is all right at home and will be a pleasure to those you have left behind.

EVERY BELL TELEPHONE IS A LONG DISTANCE STATION

Here's the Answer!

When you want quick action---Telephone.

A Long Distance call gives instantaneously information that it would take two days or more to obtain by mail.

When you need some detail information, from a distant factory or customer, Telephone.

"Today, Not Tomorrow" is the slogan of the live business man and his Long Distance Telephone is one of his best aids for obtaining quick results.

**THE PACIFIC TELEPHONE
AND TELEGRAPH COMPANY**

**Reach Out—
Telephone**

Looking for Business?

Pick out any town on the map; then ask for the Telephone Toll Rate. You'll find it *low*—so low that you'll wonder why you never before tried this quick, conclusive method of attracting trade.

Take a talk-trip by Bell Telephone. Boost your goods! The buyers of a hundred towns are glad to hear from you.

Use the Bell
